

ENVI CHAIRS

INSTALLATION AND OPERATING INSTRUCTIONS

INCLUDED COMPONENTS:

Headrest and Accessory Bag

Toolkit

Power Cord

Foot Pedal

Touch-Up Paint

REQUIRED TOOL:

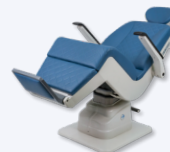

5 mm Allen Wrench

AUTO RECLINE

TILT

MANUAL

Read all instructions before assembly or use. Assembly, operation, service, and adjustments should be performed only by qualified personnel. Verify all components are present and inspect the chair for damage before beginning. Place the chair on a level, stable surface with clearance for all moving parts. Keep hands, cords, and obstructions clear during operation. Disconnect power before servicing or adjustments. Do not operate the chair if parts are damaged or not functioning properly. Contact Envi support before continued use.

ASSEMBLY STEPS

1 UNPACKING

- Remove outer box, straps, and packing materials.
- Remove protective wrap and locate included accessories.
- Verify all components are present.

2 HEADREST INSTALLATION

- Remove headrest assembly and plastic from small box.
- Remove 3 rear chair screws, align headrest, then reinstall and tighten the screws securely.

3 CONNECT & TEST

- Connect power, foot pedal, and stand cable if needed.
- Inspect upholstery, fasteners, and moving parts.
- Power on and test all functions.
